RE: Transfer of NO<sub>x</sub> Emission Reduction Credits from BCP Liquidating LLC

Dear Mr. Wise:

On May 3, 2005, the Department issued an Emission Reduction Credit (ERC) Certificate to BCP Liquidating LLC (BCP) (AI 121722) reflecting the creditable NO<sub>x</sub> reductions realized by permanently shutting down a portion of the Methanol Plant formerly owned by Borden Chemicals and Plastics Operating Limited Partnership. This certificate also reflected the transfer of 4 tons of ozone season (O<sub>3</sub>) NO<sub>x</sub> ERC to Air Products and Chemicals, Inc. (AI 2679).

By letter dated January 24, 2006, BCP notified the Department that 65.5 tons of ozone season (O<sub>3</sub>) NO<sub>x</sub> ERC and 91.6 tons of non-ozone season (non-O<sub>3</sub>) NO<sub>x</sub> ERC generated by the aforementioned shutdown will be sold to Shintech Louisiana, LLC (Shintech).

This letter serves to acknowledge the transfer of ERC from BCP to Shintech. Per LAC 33:III.617.C.3, the role of the Department in the transfer of an ERC certificate shall be limited to providing information to the public, documenting ERC transfers, and registering ERC certificates. In the case of a partial transfer, the Department shall issue a new certificate to the new owner as well as a revised certificate to the current owner reflecting the available credits to each owner. The banking database shall be adjusted accordingly.

Attached is Shintech's ERC Certificate. A revised certificate will be issued to BCP separately. If you have any questions, please call Bryan D. Johnston of the Air Permits Division at (225) 219-3118.

Sincerely,

Chuck Carr Brown, Ph.D.  
Assistant Secretary
